Lyrics and Chords  
Chords: AM7-DM7

You got, little red rose petals on your belly girl  
Tickling tender kissing on your cheek  
I, whisper in your pretty ear as I nibble here and there  
As (And) I, let you know how much you mean to me.

And I, never knew that you'd  
Be the one I would bide my time with  
And I thank the lord above  
For everything you've given me  
So, lay back girl and let me take care of you  
Won't you let me take care of you

I never knew you'd be the one who made me smile the way you do  
I never knew you'd be the one I said I love you to  
I never knew I'd call you my best friend love  
And I, never knew you'd be here 'til the end girl

We are, making love at midnight in the summertime  
Cool melodies, giggling sweetly all the while  
You, tell me that you love me as we sip some wine to pass the time  
Through the drizzling rainsong on the windowpane

And I, never knew that you'd  
Be the one I would bide my time with  
And I thank the lord above  
For everything you've given me  
So, lay back girl and let me take care of you  
Won't you let me take care of you

Let me take care of you (5x)
